The 3rd European Course in Endonasal Rhinoplasty – Regensburg 2024

Dear Colleagues and Friends:

The minimally invasive character of the endonasal operation has created a significant shift towards the endonasal operation. Patients are increasingly requesting soft, minimally invasive techniques and conservative approaches. The present course introduced the concept of dedicated endonasal events in Europe. After two successful, sold-out meetings, we are pleased to invite you to the 3rd course in Regensburg.

You will be presented with coherent solutions through deformity – oriented, encompassing presentations. You will return convinced of the suitability of the endonasal operation to maximize preservation of skeletal structures and soft tissue compartments. Current controversies including management of the dorsum, extent of required exposure and indications for costal cartilage grafting will be discussed. Further highlights will include:

- understand and meet the patient's desires
- achieve naturally appearing results
- maintain a soft feeling nasal tip
- maximize patient comfort
- minimize tissue trauma
- utilize local anaesthesia

On a full day of anatomic dissections you will practice all endonasal (and open) rhinoplasty approaches and techniques under expert mentoring. Basic and advanced concepts will be presented.

Regensburg is one of Germany's most wonderful medieval towns, relaxing yet vibrant. Travel is easy through Munich airport, and excellent hotels are affordable.

The European Course in Face Lift and Rejuvenation Surgery will take place back to back from April 28th-30th. Benefit from the opportunity of registering for both courses and maximize your learning experience.

Please join us for these unique events.

Holger G. Gassner
Abel-Jan Tasman

Preliminary Program

Wednesday	April 24 th	
18:00–19:30	Welcome Reception for all attendees at the Finesse Center, Fröhliche Türken Str. 8	
Thursday	April 25 th	
08:15–08:30	Welcome address	Bohr, Tasman, Gassner
08:30–08:40	Education and Certification	Tasman, Gassner
08:40–09:00	Surgical anatomy – Concepts and Controversies	Bohr
09:00–09:20	The S.O.F.T. Concept: Optimizing teaching: How do you really do it	Gassner
09:20–09:40	The Endonasal Complete Release Approach – Technique	Hanga
09:40–10:10	Lean Rhinoplasty	Tasman
10:10–10:30	Break	
10:30–13:30	Live Surgery (Surgeon Gassner)	Tasman, Ferreira
13:30–14:00	Lunch Break	
14:00–14:20	Controlling tip position	Pastorek
14:20–14:40	Maximizing exposure - making endonasal easy	Gassner
14:40–15:20	Break	
15:20–15:40	Management of the dorsum – 15.000 cases over 50 years	Pastorek
15:40–16:10	Spare Roof Technique B in the era of preservation	Ferreira
16:10–17:30	Case discussions: Dependable solutions for primary rhinoplasty	Ferreira, Gassner, Tasman
19:30	Course Dinner	

Preliminary Program

Friday	April 26 th	
09:00–09:20	Management of the nasal valve	Haubner
09:20–09:40	Controversies around the middle vault	Tasman
09:40–10:00	The asymmetric nose: Logical solutions	Gassner
10:00–10:30	Break	
10:30–11:00	Preservation techniques to correct asymmetries	Ferreira
11:00–12:00	Revision Cases: Consistent solutions	Tasman, Ferreira, Gassner
12:00–13:00	Lunch Break	
13:00–13:30	Managing the saddle nose – the Reverse Spare Roof Technique	Ferreira
13:30–13:45	Endonasal Cleft Rhinoplasty	Nunes
13:45–14:15	Break	
14:15–16:00	Cases: Preventing and managing suboptimal outcomes	Tasman, Gassner, Ferreira
Saturday	April 27 th	
09:00	Registration	
09:30	Dissections	
12:00	Lunch	
15:00	End of Course
