## Dear Colleagues and Friends:

We would like to invite you to the European Face Lift Dissection Course in the beautiful city of Regensburg, Germany. Per tradition, you will be offered excellent quality fresh frozen specimens to practice a variety of face lift techniques and blepharoplasty. This one day intensive course will be tutored by expert surgeons. Brief instructional lectures will be given for each segment of dissection. Two participants will share one specimen and be able to learn by performing dissections on both sides.

Regensburg is one of Germany's most wonderful medieval towns, relaxing yet vibrant. The town is located close to Munich. Travel is easy through Munich airport, and hotel accommodation is affordable. Share the enthusiasm of over 1600 colleagues who have attended the past Regensburg conferences.

Please join us for this unique event and share a memorable time.
